White Paper for $CoinBevAI
Revolutionizing the Global Beer Ecosystem
December 2024

Abstract

$CoinBevAI is a decentralized cryptocurrency with real-world utility, designed to connect beer enthusiasts and breweries worldwide. The coin aims to empower a global community of beer lovers while providing breweries with direct access to their most engaged audience. By offering tangible incentives such as staking rewards and discounts, $CoinBevAI is uniquely positioned to disrupt the beer industry by fostering a mutually beneficial ecosystem.

Vision

The goal of $CoinBevAI is to serve as the foundation of a decentralized beer economy, fostering seamless interaction between breweries and beer enthusiasts. By harnessing the power of blockchain technology, $CoinBevAI establishes a transparent, reward-driven, and community-centric platform that delivers value to all stakeholders. In doing so, $CoinBevAI aims to evolve into the world's most recognized and valuable global beer brand.

Key Features

1. **Real-World Utility**:
   - **Staking Rewards**: $CoinBevAI holders can stake their tokens to earn tangible rewards such as beer from partnering breweries.
   - **Payment Option**: $CoinBevAI will be accepted as a currency to purchase beer online, with an attractive 15% discount on Fiat equivalent pricing.
2. **Global Brewery Network**:
   - The platform incentivizes breweries to join the ecosystem, offering them access to an engaged, global community of beer enthusiasts.
3. **Decentralized Growth**:
   - Active holders play a pivotal role in onboarding additional breweries, ensuring organic and sustained expansion of the network.

Initial Sponsorship and Utility

The initial sponsorship of $CoinBevAI is provided by **MetaBrewSociety**, a pioneering web3 beer brand with a proven track record of delivering real-world value to its community. MetaBrewSociety owns a brewery in Naila, Bavaria, and has been fulfilling its commitment to NFT holders since September 2022.

- **Staking Rewards**: For every 100,000 tokens staked, holders will receive 20 cans of MetaBrew beer every 90 days. Those staking between 25,000 and just under 100,000 tokens continuously for a full year will qualify for 20 cans of MetaBrew beer after 365 days. Quarterly rewards are only granted for full multiples of 100,000 tokens, annual rewards only for full multiples of 25,000 tokens under 100,000 tokens; partial staking does not earn rewards.

- **Claiming staking rewards:** $CoinBevAI will periodically airdrop "Staking Reward NFTs" to eligible wallets. Holders can redeem these NFTs by burning them in the online shop of participating breweries (starting with MetaBrew) to receive their rewards.
- **MetaBrew Sponsorship Period**: Valid until the end of 2025.
- **Conditions**: Free beer provided as staking rewards; shipping costs are covered by the holder:
  - **$ 7.50** for shipping within Germany
  - **$ 15.00** for shipping across Europe
  - **$ 45.00** for shipping to the US and Canada
  - **$ 90.00** for shipping to Australia and New Zealand
- **Future Expansion**: The goal is to onboard additional breweries offering similar rewards. Ideally, holders can help onboard local breweries, reducing shipping costs and improving accessibility.
- **Beer Purchases**: MetaBrewSociety will be the first brewery to accept $CoinBevAI as a currency, granting a **15% discount** for purchases made using the token.

Tokenomics
1. **Supply and Distribution**:
   - Total supply: Fixed cap of 1 bn tokens to ensure scarcity and value growth.
   - Distribution: Mint via Pumpfun, closed.
2. **Staking Mechanics**:
   - Rewards tied to token thresholds (e.g., 100,000 tokens per 20-can reward).
   - Adjustments to staking thresholds and rewards as the ecosystem grows and floor price increases.
3. **Incentives for Early Adopters**:
   - Additional perks for early community members who onboard new breweries or help expand the ecosystem.

Roadmap
1. **2024**:
   - Launch $CoinBevAI and staking platform. (Done)
   - Integrate payment systems for $CoinBevAI at MetaBrewSociety.
   - Begin brewery onboarding campaigns.
2. **2025**:
   - Expand brewery partnerships globally.
   - Introduce fractional staking rewards as the coin's value grows.
   - Develop a robust online beer marketplace powered by $CoinBevAI.
3. **Beyond 2025**:
   - Scale $CoinBevAI into a global beer economy.
   - Implement advanced features like NFT integrations and decentralized voting for ecosystem decisions.

Value Proposition

1. **For Beer Enthusiasts**:
   - Access to staking rewards in the form of real-world beer.
   - Discounts on purchases made with $CoinBevAI.
   - Participation in a thriving, community-driven ecosystem.
2. **For Breweries**:
   - Direct engagement with a dedicated beer-loving audience.
   - Increased sales and exposure through participation in the ecosystem.
   - Improved customer retention and loyalty.

Call to Action

$CoinBevAI invites beer lovers and breweries to join the movement. Together, we can create a decentralized platform where beer is more than a beverage—it's a community. Whether you're a holder, a staker, or a participating brewery, $CoinBevAI offers tangible value and the promise of a brighter, blockchain-powered future for the beer industry.
